**Good afternoon,**

**Attached is the final policy that goes into effect Feb. 1<sup>st</sup>, 2018. This policy incorporates all things agreed upon as per our discussions during our BLM/operator/rancher meetings.**

**Along with policy, is the template that Operators will use to Request Authorization and to notify of installation and removal of the temporary lines. By utilizing this template, it will make the process be more efficient and gain consistency as the BLM will not have to review multiple ways of receiving the requests.**

**The Non-Compliance section of the policy asks the operators to become familiar with 43 CFR Subpart 2808-Trespass. I have also attached it for your reference.**

**As this is implemented, please let the BLM know if there are still issues or concerns with companies not abiding by the policy. We can then reconvene and update policy if needed.**

**It was a pleasure working with y'all on this and hope to keep that relationship going as we continue to improve this and other processes going forward.**

**Please don't hesitate to contact me if you have any questions.**

Sincerely,

*Yolanda Perez*
